

Overview of the Advanced Implant Resource Library for Your Practice Use

The Rule of 100:

If you spend 100 hours a year in any discipline, (which is only 18 minutes a day) you'll be better than 95% of the world in that discipline.

Consistency is EVERYTHING

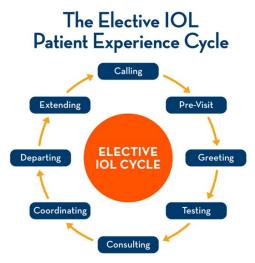

The Key is to create CONSISTENCY

- -Utilizing forms that act as both educational AND as prompts to complete tasks along the journey is a great way to keep those handoffs smooth and patent satisfaction HIGH.
- -This BRICS resource may become your favorite

How to Use the BRiCS Resource Library

Welcome to the BRiCS Resource Library! This collection contains essential tools to improve your practice's processes and use of advanced-technology IOLs at all stages of the patient experience cycle. Everything provided here was created and refined by faculty members for use within their own premium practices, and they want you to have their keys to success.

You can navigate this resource library in a couple of different ways:

- 1) By <u>resource type</u> (forms, protocols, checklists, etc.)
- 2) By stage in the patient experience cycle (calling, previsit, greeting, testing, etc.)

Once you identify a resource you'd like to use within your practice, you can download and customize it to fit your patient and practice needs and start using it immediately!

The resource library website, exclusive to BRiCS Summit graduates, also includes <u>industry</u> resources, <u>on-demand sessions</u> recorded from the BRiCS Summit, and <u>additional webinars</u>.

If you have any questions about any of these resources, please reach out to BRiCS@ascrs.org.
